Focused Supplier of Electronic Components to a Broad Range of Industries

MPD

MEMORY PROTECTION DEVICES, INC.

Battery Holders

For primary & stand-by power and CMOS memory back-up

MPD offers a wide diversity of popular sizes, styles, terminations, options and accessories. The fact is, our website features the industry's largest array of battery holders, including extensive medical and military types.

Key Features:

- Engineered designs assure optimum battery tightness
- Low contact resistance
- Accepts NiCd, Carbon Zinc, and Alkaline batteries
- Molded of flammability rated high impact resistant plastic
- Broad temperature service range
- Molded-in contacts for PC board wave soldering
- 6" UL-CSA rated wire
- Male/Female 9V snap fastener terminals

Coin Cell Holders

For handheld and portable devices

Key Features:

- Bright gold-plated contacts (over base metal) – particularly effective in outdoor or humid environs
- Resists tarnish or corrosion
- Unique design keeps coin-cell firmly secured, with dual beams for assured contact
- Gold's low resistance (30 M O max.) helps extend battery life
- Break-resistant, lightweight LCP plastic body resists high temperatures
- Lead-free reflow process, compatible to over 300°C
- Pick and place compatible
- Shock and vibration resistant
- Available for CR-2032 and other size coin-cell batteries
- Thru-pin and surface mounting
- Available tape and reel
- Requires no tool for battery removal coin-cell battery holders

Fuse Clips

For 2AG, 3AG and 5mm fuses; Easy to assemble; Quick ship

MPD's low-profile, snap-in design with PC retention for wave soldering, is available with legs for critical alignment during PC installation, and comes with or without stops. Rated 6.3 to 30 Amps.

Also available:

15 Amp PC Automotive Blade Fuse Holders

- Thru hole PC mountable, maintains position during wave soldering. Holder design prevents solder wicking. Shock and vibration resistant. Durable grip, even after multiple uses.

Fuses

- A wide range of fuses from 4A to 312 3AG.

Fuse Blocks

- With black phenolic base, available in a variety of configurations. UL rated.

Fuse Holders

- Panel mount available in an assortment of styles with several options including anti-shock safety features. UL rated.

Auto Plugs, Sockets, Auto Plug-in Cords

Low cost, high quality

Auto Plugs (14 versatile designs)

MPD's auto lighter plug accepts a standard 3AG fuse and is supplied with a 250 volt 3 amp type. An optional 3mm red LED (when lit) assures that the unit is receiving power. The plug unscrews for easy soldering.

Power Cord Assemblies

For foreign & domestic autos/sockets. Molded DC plug – 2.1* x 5.5mm, straight or right angle. 2A thru 10A. Straight wire or coil cords in many gauges. Custom assemblies, too.

*2.5 optional.

Sockets

Plastic or rugged metal case. Screw lock or insert lock mounting types. Porcelain or Bakelite insulators. Mounting panels and dust covers available.
